

## ▣ Brief Bio of Anuj Bhargava

Anuj Bhargava started Kumar Labels in the year 2007 with the mission of becoming a leading label provider by the way of efficient manufacturing and service operations.

Prior to Kumar Labels, Anuj worked for Corning Display Technologies based out of Shizuoka Japan. Anuj managed the development and deployment of packaging technologies used in packing of LCD glass. He worked in the engineering division and supported the packaging function of plants in Japan, Taiwan and Korea.

Before joining Corning, Anuj completed his M.S. in Engineering & Production Management from Loyola Marymount University (LMU), Los Angeles. With focus in Lean Manufacturing, Anuj worked for the Industrial Assessment Centre at LMU where he supported numerous SMEs located in Los Angeles area for productivity improvement. Anuj also won several awards at LMU's Entrepreneurship Society for developing new business ideas and obtaining seed money for one of the proposed ventures.

Before going to the U.S. Anuj graduated from Nagpur University, majoring in Electronics Engineering.

A firm believer of Toyota Production System, Anuj is leading Kumar Labels with a solid year on year growth while keeping the three core values (Quality | Integrity | Performance) intact.
